#### Air Conditioning Update

You might be wondering about the progress of repairing our air conditioning system. You may recall that the problem is with a "chiller" that provides the cold air for the air conditioning. To update you on the progress, we have received bids of proposals for the repairs that are under consideration by the Facilities Committee. Upon their decision, we will be able to move forward in ordering the new chiller and begin repairs. Please know that this process will take some time, as the repairs will be extensive. We will keep you informed of the progress and do everything possible to complete the repairs as soon as possible. Thank you for your patience.
